To whom it may concern,

I am writing this letter to express my strong support for Mr. Chen Zhang's application. Mr. Chen Zhang is one of the best undergraduate students at the Department of Computer Science at Texas Tech University. I highly recommend him.

Mr. Chen Zhang took Assembly Language and Computer Organization with me in Fall 2019, and got a grade A for this course. He is a very prolific and hardworking student with a keen mind and exceptional motivation. He has consistently produced a high standard of work. He is able to manage his time effectively.

He is a high-energy self-starter who quickly assumes responsibility, and not afraid to face new challenges and situations. He was conscientious in his class attendance and in the preparation of his homework. I am confident that the work habits he has demonstrated will continue. He is well versed in computer programming languages, such as SQL, C/C++, C#, Java, Python, Assembly Language, and others. Besides, he is excellent in cloud server (e.g., CentOS+nginx+php+MongoDB) and databases (e.g., Oracle, MySQL, Mango DB).

In summary, I believe that Mr. Chen Zhang certainly possesses the necessary academic strength. He also possesses both technical and educational skills, and the required enthusiasm to carry out his work successfully and fruitfully. He is a sound and congenial scholar, who has great potential for further development. He is well motivated and will continue to be very productive. I strongly support his application.

If you have questions or require further information about Mr. Chen Zhang, please do not hesitate to contact me via email victor.sheng@ttu.edu.

Sincerely yours,

Victor S. Sheng
