United States

Dear Chen:

We are pleased to confirm that you have been awarded a \$1,000 competitive tuition scholarship for the 2020-2021 academic year. This is a one-time award and will not be renewed for additional academic years. The amount of the scholarship is \$1,000 for one year beginning in Fall 2020. It will be disbursed as \$500 in the fall semester and \$500 in the spring semester as a scholarship, paying tuition and fees first, with any remaining balance issued to the student by Student Business Services (SBS). In addition, this award is expected to waive out-of-state tuition for the award years and does not require any service to the university.

In addition, the Edward E. Whitacre Jr. College of Engineering will provide you a \$1,000 scholarship for your second year, beginning Fall 2021.

This scholarship is for new students entering Fall 2020 and cannot be deferred to future semesters.

Receipt of this scholarship is contingent upon the following conditions:

- Full-time enrollment of 9 or more hours
- You must be registered full-time prior to the first day of classes.
- If your department, the Graduate School, or another Texas Tech University entity awards you an assistantship or another scholarship prior to the start of the Fall semester, then this scholarship will be revoked.

Congratulations on receiving this award. We are excited to have you join our community of scholars.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark A. Sheridan'. The signature is fluid and cursive, with a large, stylized 'M' and 'S'.

Mark A. Sheridan, Ph.D.  
Vice Provost of Graduate Affairs and Dean of the Graduate School
